

Canadian Made Custom Cabinets

Get to Know Us More.

Made in Calgary, Canada and
installed in as little as 4 weeks, our
custom designs bring top quality
cabinets at affordable prices
directly to your client.

Our expert designers work with your client to create a unique
kitchen that suits thier style, budget, and needs.
Specializing in custom cabinetry, we're dedicated to making thier
space both beautiful and functional, from concept to installation.

Product Highlights.

Liber custom cabinets are built to last. As a reputable company we take pride in the products we offer to our clients. We have invested in top equipment for maximum productivity.

- Solid PLYWOOD / DOVETAIL drawer box construction is a standard at LiBER
- All Liber drawer slides are full depth, one piece, full extension with anti slam and 6 way adjustable MOVENTO BY BLUM system
- Cabinet boxes are built with 3/4" thick materials, and the back panel is constructed with 1/2" for extra stability.
- LiBER uses only European concealed hinges with soft close and on/off formula by BLUM

Our Cabinet Collection.

- Shaker style MDF finishes are available in any Benjamin Moore colour, are made of either PET (polyethylene terephthalate) or TFL (Thermally Fused Laminate); soft-touch, super matte, durable finish, and are European-made.
- Wood grain finish available to color match.

Our Process.

Design Concept and Budget

An estimated cost of the cabinetry for your home will be generated based on the initial selections and will include a preliminary drawing of your kitchen. Budget establishment is critical at this point and it should be well understood by both parties.

1

Initial Design Consultation

Please bring to this meeting any images, ideas, blueprints, measurements and drawings of your dream and existing kitchen.

Remember that we can custom match any colour that you like. Cabinet construction, different cabinet materials, kitchen styles will be discussed and any questions that you have will be answered.

2

Our Process Contd.

Design Development and Final Quote

Additional design meetings are required to discuss any potential changes, take necessary measurements and to provide you with finish samples for your approval. At this stage you will be given full plan and elevation drawings, a final quote of your Calgary custom kitchen cabinet costs and an estimated time of delivery. LiBER will need 3 -5 weeks to manufacture the cabinets depending on the size of the project.

3

Installation and Follow Up

This is the time when our professional team will deliver and install your beautiful kitchen cabinets. LiBER guarantees exceptional service until the project is complete and you are completely satisfied.

4

Important Warranty Information

Our warranty covers all products or materials supplied by LiBER to the original purchaser or homeowner.

We warrant our products to be free from defects in materials and workmanship for a period of 1 year from the date of delivery. In the event such a defect is determined to exist, at LiBER's discretion the defective piece will be repaired or replaced.

LIFETIME warranty on drawer and adjustable shelving.

LiBER warrants that all drawer components, (excluding decorative drawer front and decorative hardware) and all interior adjustable shelving components installed by LiBER in any cabinet, will be free of defects in material and workmanship as long as the original customer owns the product. In the event such a defect is determined to exist in these component parts, as it's option, LiBER will either repair or replace the defective component.

Thank you!
